MEN AND RELIGION BULLETIN NO. 88

"He Calleth You"

"The Kingdom of God Is Come Nigh Unto You" Luke 10:9.

Are you poor?

Does poverty pinch and press?

Jesus became poor—He endured the cross for you.

For you, first of all, good news. He bids you come.

You Should Go.

But you-you are rich? Of this world's goods you have enough and more?

To you, He is saying:

"Take up your cross and follow me."

You should go.

If you are in sorrow, He knows your grief.

God sent Him to heal the broken-hearted.

Are you blind?

Think well.

God's word once appealed: His truth was clear: today, you say, it is meaningless to you; your eyes are sealed. When a child you knew your Father's love. Now you do not feel-you cannot see.

You are blind. He calleth you.

You Should Go.

He will restore your sight.

You are weary?

You feel beaten and buffeted down in the battle of life- bruised-

You who have conquered in your fight for material success-

You are scarred and bruised.

Men may not see the marks.

But you and your Father see and know the cost.

Cast all of your anxiety upon Him and come.

"He careth for you."

You Should Go.

Your Father is saying-

"Come now and let us reason together-

"Though your sins be as scarlet they shall be as white as snow: though they be red like crimson they shall be as wool."

He has promised:

"Him that cometh unto me I will in no wise cast out."

All we like sheep have gone astray; we have turned every one to his own way:

"And the Lord hath laid on Him the iniquity of us all."

Today He pleads—

"Come unto me."

He calleth you-He calleth us.

Sunday, the doors of His Church—your Church—our Father's House will open for you and us.

We Should Go.

You should go.

Come and go with us.

Your Father is calling you home.

UNFAIR POLITICS.

It is to be repretted that Representative Hobson of Alabama sought to transfer the senatorial campaign of Oscar Underwood and himself from the hustings of Alabama to the floor of the house of representatives. From the point of view of propriety and playing the same squarely, the exhibit was particularly ill-timed. Mr. Hobson waited until the galleries were packed with advocates of prohibition, then visiting Washington, to launch into a nery and unsupported attack upon the record of Mr. Underwood. It is significant that while the galleries applicated Mr. Hobson the congressmen, without regard to partiasan differences, cheered Underwood when he rose to resply.

gressmen, without regard to parishal miller ences, cheered Underwood when he rose to reply.

The property of the property of the college of the property and the property of t

and time of the house from the pumin useriness to agitate their own political preferment one who knows Occar Underwood and
has followed his record will for an instant credit the assertion tint he is capable of being unduly influenced by any interest intimical to the public welfare or his oath of office. His entir record in congress, and emphatically his record as the maker of the tariff bill as it now stands, bears witness to this fact. No man since the civil war has served ment of the control of the control of the tariff bill as it now stands, bears witness to this fact. No man since the civil war has served ment of the control of the control of the first schedule to be generously cut was steel. And the private interests of Oscar Underwood are attached to the steel and iron industry. That exhibit of self-efface-ment is typical of the entire course of con-duct of the man. The Constitutive democracy will be re-orded to the man of the course of the popule of our sister state with too much clearness of vision and too much apprecia-tion for real worth. Even a temporary loss of Oscar Underwood to public life would be a reflection upon his home state, and a loss of Oscar Underwood to public life would be a reflection upon his home state, and a loss

T'S so hard to get anything for a man. They are so particular and anything they will have costs so much!

Have you ever heard that? Have you ever said it?

FOR CHRISTMAS?

Of course you have. It's a troublesome truth.

Now here is the problem solved. You can give him a book. Oh, no, don't be afraid. It is one he hasn't read and it is one he will be sure to like. It is the only book that tells all about the great Panama Canal, the most wonderful engineering accomplishment of a wonderful age.

And cheap? No, indeed. It is cheap in nothing but the price. It isn't cheap in appearance. It is bound in heavy cloth, printed in clear type on good paper and is profusely illustrated. It has a bird's-eye map of the Canal printed in four colors that will actually compel you to see the Canal. The illustrations prapared by the official photographer of the Canal Commission in themselves are a delight. The physical value of the book is equal to that of any book you usually buy for two dollars.

Who wrote it? Frederic J. Haskin, the author of "The American Government" that delighted so many men on Chistmas morning last year.

How can you tell that it is accurate and dependable? Well, Col. Goethals says so. He dug the Canal and he ought to know. There is no book like it and it will please anyone who gets it for Christmas. You may be sure of that.

Heat is the test that gives you the ralue of a motor oil. A lubricant that runs thin under heat is costly. Friction increases, parts wear, power diminishes.

Polarine assures a perfect lubricating body under heat. Penetrates every crevice, yet body is always the same.

Gives your motof more power. Minimizes friction, hence does away with costly process of frequent tearing apart of motor—reduces repair bills. Saves its cost in a year's time.
