Satisfaction with the VELIE is the satisfaction obtained from a car that is not only built right, but that embodies all the luxuries and beauty that can be built in an automobile—and it means satisfaction obtained through prompt attention to every requirement of VELIE owners.

end.

The intelligent attention a community pays to its educational facilities is almost as important a gauge of its prestige and a prophecy of its future as are its bank clearings and its postoffice receipts.

Realization of that principle explains the remarkable response Atlanta has made and is making to the whirtwind campaign of the workers for Oglethorne.

The fund has progressed by leans and

The end of this week should see that fund completed.

The call is of an inter-denominational as well as a broadly civic nature.

Virtually every denomination in the southern states has confributed to the reconding fund, in the confident belief that Atlanta would meet the terms upon, which depends the privilege of farabiling the site for the south's greatest university.

Georgia, through its other cities and its small towns, has been especially liberal.

All that now remains is for Atlanta to roll up the few thousands that stand in the way of the consummation of the project.

The \$500-009 fund now being completed is only the starting point—the actual inauguration of work on the plant of Qelcherpes.

Office this sum is insured, the south generally will give to a degree that will make Oglethorpe one of the outstanding universities in America.

Such an institution will be one of the most attimulating community assets Atlanta can possess.

AN ORDERLY CHRISTMAS.

AN ORDERLY CHRISTMAS.

In past years Christmas in Georgia as in most other American states has been a saturnalia of murder, debauchery and crime in its various repugnant aspects. In some respects it has been as unlike the celebration of the natal day of the Prince of Peace as though it were a pagan carnival surrounded with pagan rites and license. The ministers, the police authorities, the press and other public influences might well begin now to take steps for rigorous precautionary measures to the end that Georgia, whatever else may be done in other commonwealths, shall observe a truly Christian Christmas.

Absolutely Pure

There is a remarkable interest in Home Baking and Cooking throughout the land.

This is a most encouraging indication that the battle against impure, improper food is going to be won.

The credit for the victory will belong to the women of the country.

Home cooking has the backing of science and the approval of fashion. It adds to housekeeping a pride; to our food, healthfulness.

It is acknowledged by experts, and by the women who know, that the best cooking in the world to-day is with the aid of Royal Baking Powder.
