Certain to Make Champion Class SENSATION CHIEF EXPERT FOR ST MADE TO JOURNAL FRI

> Dr. H. F. Harris Admits, When Questioned, That He Examined Under Microscope Strands of Hair Found on Lathe in Metal Room and Compared Them With Mary Phagan's Hair and That They Were Entirely Different in Texture and Could Not Be the Same

- ist FINDING OF HAIR ONE OF LINKS IN CHAIN FIXING THE CRIME ON THE SECOND FLOOR

Defense Will Probably Make Dr. Harris' Statement the Basis for an Extraordinary Motion for a New Trial for Frank-Dr. Harris Says He Reported Result of His Examination to the Solicitor and Thought No More About It. Still Has Specimens of Hair . . .

A new, and what is considered a most important feature of the Frank case, and one upon which the defense, it is believed, will base as activationary motion for a new trial for the condemnate man, was developed Frids; by The Journal. The strands of hair found on the lattee handle in the metal room on the second floor of the Nailonal Penell factory, which formed one of the states glubbs to fix the erring as haring been committee on the second gloop on which Leo M. Frank had his office, was not the hair of the lattee Phenen.

Becond how you when the structure of the state board of health, who performs the state board the state board of health board of health board specimens of hair were gidely different and not from the head of it

Reported Facts to Solicitor

Deported Facts to Solicity. The Hard way that he proported this fact to the solicitor and the tast to take the proported this fact to the solicitor and the tast to take the properties of the solicitor and the solicitor the properties of the matter a very material one, and dismissed throm my mind," said Dr. Harris. "And I don't recall that I way satisfy a solicitor in the solicitor. There the microscopic sections, the solicitor of the two microscopic sections, the solicitor of the two microscopic sections, the solicitor is the solicitor of the two microscopic sections, the solicitor is the solicitor of the two microscopic sections, the solicitor is the solicitor of the two microscopic sections, the solicitor is the solicitor of the two microscopic sections, the solicitor is the solicitor of the solicitor is the solicitor solicitor solicitor is the solicitor of the same be simply remarked the would be matter and there,"

Significance of Statement

The defense will, it is and, kay particular stress upon the hair in-cident in its extraordinary motion for a new trial, allocing that it is defense will, it is understood contrast distinction. In this motion the defense will, it is understood contrast distinction. In this motion the defense will, its understood contrast distinction. In the second filor of the passificatory—the funding of hair on the lathe on the second filor of the passificatory—the funding of hair on the lathe on the second filor of the passificatory—the funding of hair on the lathe on the second filor and that this impression resulted in Frank being connected with the origin.

FRANK MOTION SATURDAY. At a late hour Friday afternoon the Ends Life Because court of the Leo M. Frank case had not been filed.

With Him to Dance

Don't Trifle With Your Health!

-it is too precious a possession. It is trifling to neglect the little every-day kind of aliments. It is trifling, too, to take medicines of unknown or doubtful ingredi-ents. If your stomach gets out of order, your food is not digested and, of course, your blood gets thin and you become weak, ready to be a prey to the disease germs always ready to attack the run-down and the anaemic. If your liver can't do its work, your blood becomes impure and many troubles follow. If your bowels are irregular, poisons accumulate in your body.

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> For the Great Finale

This will Positively be the Last Reduction of Cloud-Stanford's February Clearance Sale

Just a few more days now-the end of the monthand all reduced prices will be discontinued. We make this statement with much emphasis.

As a grand finale, as a last announcement, we make the following reductions on every suit and Overcoat in the house regardless of whether it be Summer or Winter weight

\$20.00 \$2.2.50	Suits and Overcoats	\$1	0.5	0
{\$25.00 {\$30.00	Suits and Overcoats	\$1.	3.5	0
\$35.00 Up	Suits and Overcoats	\$1	7.5	0

In all seriousness we advise you to take advantage of these reductions. The values offered are so very exceptional and the character of the wearables so far superior to anything possible to secure at near these prices, makes this a most opportune time to secure clothing, for now and next Winter or for the Spring and Summer season fast approaching.

ATLANTA, GEORCIA. Journal Building, 5 Morth Forsyth Size ad at the Postoffloe in Atlanta as Ma of the Second Class. Daily, Sunday, Bend-Weekly.

JAMES R. GRAY.

TELEPHONES:

It will be an ill wind indeed that blows the cold on the Georgia peach.

The price of radium doesn't excite much con as long as the price of eggs is in competition.

Joe Cannon would rather stand pat than be president: not that there is any danger of the latter.

Atlanta As a Convention Center. Atlanta has the interesting distinction of leading mac in the field of important conventions; fur

tomac in the field of important conventions; up-ermore, it ranks fifth in the entire Union and assess close to the record of Boston and St. Louis. The figures' showing the number of conventions listed for the next three months are noteworthy New York, twenty-six; Chicago, twenty-four; Boston twenty-one; St. Louis, twenty-one; Atlanta, ninetcen Minneanolis, nineteen: Dallas, fourteen: Washington Animeapone, mineteen; Danas, tourteen, washington, nine; Little Rock, eight; Baltimore, eight; Atlantic City, eight; New Orleans, six; Louisville, four; San Francisco, four; Richmond, four; Birmingham, three; Savannah one

This record strikingly attests Atlanta's command ing position in the affairs of the Southeastern State and also its accessibility from all parts of the country. The conventions to be held here this spring country. The conventions to be held here this spring represent organizations of national scope; their dele-gates will come from every quarter of the Union. The city could not have secured these meetings had not its railway connections been especially broad and its facilities for the comfort of visitors excentionally good. Possessing these and many related advantages, it is the South's foremost convention point and one of the strategic points of the country at large

Due credit must be given in this connection to the efficient work of the Atlanta convention bureau which has accomplished a vast deal in making the city's advantages widely known. The conventions listed for the next three months are only few of those the bureau has secured for the year. It is conervatively reckoned that these nineteen gatherings will bring seventy-seven thousand visitors who will spend considerably more than a million dollars during their stay. Far more important however than the their stay. Far more important, however, than the financial side of the conventions is the publicity they will give Atlanta, and the broad intimate touch with the entire country.

The convention bureau, for which the Chamber of Commerce is to be thanked, is one of the most productive agencies for Atlanta's upbuilding. Its off and staff of workers have earned the commun hearty admiration

That Providence man who got six years for beat ing his wife to death would probably be merely

Nearly all the banks of the country have decided to enter the reserve system notwithstanding that so many of them opposed it at the beginning.

The Whine of the Standpatter.

"When railroads begin their 'open season rk again, when other construction work de pending on good weather is in full blast, when the growing and ripening things of the farm de-mand great numbers of workers—will then the standpat politicians say that the almost universal employment of those who want to work is due to the beneficent influence of the Wilson polic the tariff, the currency and trust regulation?

This incisive question from the Kansas City Sar, a newspaper noted for independence, carries its Sar, a newspaper noted for independence, carries its own sufficient answer, and strips bare the hyporing of those who exaggerate present conditions of unem-ployment and ascribe it to political causes. Winter is always, and naturally so, a season of comparative inactivity in many kinds of labor. Rough weather checks building operations; in northern latitudes it delays the plans of the farm; it calls a halt to centain lines of railroad improvement; and, what is par licularly to be noted, it hurries thousands of shiftless men to the larger cities where they hope to live by luck or charity.

It is only to be expected, therefore, that the num ber of unemployed is greater at this time of the year than ordinarily, but to say that it is greater than at the average winter's end or that it is due in any wise to a change in the Government is without reason or Long bread lines in big cities are not an indica tion of conditions in the country at large. Irresponsi-ble gossip by sourced politicians has no statistical value. The calamity croskers, having failed at every evice, are now mumbling of "unemployment." but still they get no response.

The Wilson administration, true to its clear-cut straight-away character, has determined to make a thorough investigation of conditions of unemploy-ment, to discover the facts precisely and seek a remedy, if one be needed. Meanwhile the country is content; it is conscious of new energy and faith in every vein of its industrial and commercial life. The administration has brought reassurance as well as freedom to business, has opened fresh opportunities ell ended old abuses.

The whine of the standpat politician is drowned in the hum of a busy nation

Playing With the City's Business. is the City Council playing a practical joke to enliven our debilitated system of government, or is

enliven our debilitated system of government, or is it utterly lacking in a sense of humor? One or the other must be true; how else can we account for its childish, interminable fuss over the apportionment sheet?

apportionment sheet? The finance committee of the lower branch of Council apont a deal of time and pains in allociting the city's money. Its report seemed fair and reason-able to a majority of Council and was adopted. Then came the board of aldermen, five of whom protest that the ablese ishall not so through until it is amended to suit them.

The difference in dispute amounts to only about twenty thousand dollars in a total appropriation of two millions. That is the straw over which this

onstrous debate is being waged. Far be it from us to enter the fracas and say Far 0s it from us to enter the tracks and asy who's right, who's wrong. It should be noted, how-ever, that the apportionment sheet has been approved by a majority of the General Council, and it seems rather incongruous that the minority should block the city's business under a plan of government, which and councilmen alike insist is Democratic aldown ove all things.

The truth is, the city's interests are being mad the plaything of an utterly inefficient system

This is no time for the sporting editor to be sing himself to spring fever.

The average man's brains are useful to ano man who knows just how to use them.

Another real estate man was robbed of \$1,000; and not every real estate man is capable of that.

All Together.

United support for the new banking and currency plan long ago ceased to be a matter of any doubt. It is none the less interesting to note that all the national banks of New York City, thirty-five in number tional panks of New York City, unry-we in autoes, have signified their intention of joining the Federal Reserve system. The combined capital of these in-stitutions amounts to one hundred and sixteen and a half million dollars, and their surplus to more than hundred and twenty-pine millions. They alone con notable part of the reserve me

It is not remarkable that the new system has wone nimous response from the quarter where opposi-a centered and was most emphatic while the law was in the making? Congress was urged by these the Glass-Owen bill and to adopt a central bank plan instead of the regional system. It was urged to min-imize the feature of Government control and to leave mine the beaute of Government control and to leave the balance of power under private rather than public regulation. Thore was even a threat that many banks would surrender their national charters unless such changes were made, and that certain great institutions would combine to form an independent syste in competition with the Government's. Yet, when the bill was enacted, with none of i

fundamental ideas changed, there immediately went up a chorus of approval. Important and helpful amendments, to be sure, had been made, and for these the good judgment of bankers is largely to be credited The interesting fact, however, is that the Administration measure weathered all opposition withstood all efforts to shake it in matters of princi ple and by virtue of its inherent justice and wisdom, won practically undivided support from the business

Fully nine-tenths of the country's national banks ified their readiness to enter the new sys have signified their readiness to enter the new sys-tem. It is thus assured of success in the outset. The transition from the old to the new order will be ac-complished with little or no friction. What a tribute is this to the spirit of American citizenship, and to the leadership of the Democratic administration.

Anybody who respects hoary age will not laugh at a patent medicine almanac joke.

Many a man is dissatisfied with his lot because it is located too near that of his neighbor.

Pitte sburg has saloons exclusively for women, and tretches of the country are without even the great stretches staple variety.

Then there is the seasonable bromide about rather being in the bleachers at a ball game any time than in the grand stand.

Editorial in Brief

Editorial in Brief "We talk of the Eltabothan age, the Victorian age, the Golden age," Rear Admiral Peary said at the dinner of the Delware Valley Society, and her builded the guests that those who shall live a year longer will have seen in five short years the north and south posed discovered and the Atlantic and Pa-cific united. They will have seen, too, great exten-sions of wirreless telagraphy and of the use of the stabilized fring machine, with perhaps a record of one mark fring nerces the Atlantic - Professor Soddy, who with Sir William Ramas' found that failum is a transmuting element, told the British Association last fail that the world must soon prepare for the announcement that a method of accelerating the outgo of energy from radium has been devised, gosther with the means of transmuting all the other elements, that would tap supplies of atomic energy part are inchassifield. It should compare well promise of this say is fulfilled, it should compare well with the other ages of human history. Thus, har they have recorded great material discoveries and literary cluvities, as in the age of Queen Bitabethy profound changes in religious belief, as in the age of Luther, or periods of conquest like those of Jalius Gener and Xa-poloud. This is the age of the scientists. They too, make material discoveries of vasis moment, and the sidelights they throw on the psychology of man and his earthy variations have deeply changed the cur-rents of the world's thinking. mise of this age is fulfilled, it should con

THE CONUNDRUM OF THE GOLF SHOPS. (Re-ontered as a halved hole with Col-Kipling.) When the fluxh of a new-born sun first firli ou Eden's solfing strand, Our father, Adam, stood on a tee with a crooked stick in his hand; And the first rude swing that the world had seen brought joy to him heart in a swarm. Till the Devil whispered behind the leaves: "It's pretty, but is it Form?"

Wherefore he called to his wife and tried to fashion his swing anew-The first of his clam who care a fig for the first great dread review; And Le (ift his style to the use of his soons and brought it a glorious gain Till the Devil whispered "Is it Form?" in the ear of duffer Cain.

They builded a bunker to reach the sky and turn each score to a blotch, Till the Levil grounded from out the sand. "It's stricking, but is it The cleak was dropped at bunker side and the life machine hung While each bloke takked of the "proper stroke." and each in an allen tongues.

The tale is old as the Eden tee and new as the unshaved check, For each dub thinks as he spears his drinks he is master of wood and

And each guy hears as the last stroke nears and bogie is getting warm The Devil sneer from behind the green: "You did it, but was it Form?" When the flicker of springtime's sun first falls with a dream that is

ever (nod, The sons of Adam hie them forth where the fairway lies beyond: Their brassles sweep as they bat the pill, but the pain and the angulah swerm? For the Devil mutters behind the tee: "You hit it, but was it Form?"

In answer to a summer of murries, our bush league options would be about the: they is higher of room anywhere for there bg league pensati winners or genuant contenders, but there isn't room in any town for one tallender. The Glants as allenders, without competition, used to play to something like 238 morbid souls. Now, with any brand of competition, they can play to 35,000.

FEBRUARY, 1915. "Yes," remarked ex-Manager O'Day, "everything Chance, Tinker, Brown and Evers said of this gny was the right dope. Only they didn't go far enough. Why, this big mutt," etc., etc.

The saduge WRY, this big mult, "elc, etc. The say say such as the same set of the same set of

This Rules of speed, how that Walter Johnson and Nap Rucker ddf' THIS RUBE vm JOHNSON. Waddell came about as close to having as much smoke as Johnson as anyone else. The old boy could certainly push the pill over the plate. He had more speed than Rucker, but not quite as much as the Senatorial Typhon. At the top of his career he was as hard's man to hit as the game has ever known, herring melter Mathewage nor Johnson, the non-game has ever known, herring melter Mathewage nor Johnson, the non-speed. He had as wonderful curve, and for all the queer dope that reled in his barare at the know how to pitch. He had the instinct of the twirling clan.

Old Timer also says that he saw Ed Crane throw a bail 407 foet. He wants to know if a batsman even bit one that far. Both Wagner and Marike hit a couple on a line over the left field fence at Pitkburg, which backed the Ginata. Frank Baker has poled half a done yowr 800 rest from his starting point.

The main difference was this-they could measure Ed Crane's throw. But they rarely find the ball again that Baker catches right.

So far the Feds havan't leased the National Capitol or Yellowste Park. But the season is still a triffe soon.

As for handling Mr. Murphy, of the Cubs, we have an idea that about 87,000 fans of Chicago will attend to that little detail between April 14 and October 6.
