Growing Daily

Do you realize that more buying and selling of second-hand machinery is transacted through the Want Ad Columns of The Journal than the average citizen imagines, and that it is growing daily.

Well, this is a fact, and the reason is that Journal Want Ads go directly into the homes, factories, offices and warehouses every day in the week, and are read by the thirty people who buy and sell through Journal Wants.

There's a way to realize a fair price for all kinds of second-hand goods if you call upon Journal Want Ads.

If you're in this market to buy or sell get into The Journal. Telephone your want ad or ask that it be sent for, as is most convenient for you. Main 2000; Atlanta 482.

CORN CLUB HOSTESSES WANT BOYS THIS YEAR

Atlanta Women Who Threw Open Homes to Young Farmers Enjoyed Their Experience

Letters from Atlanta women who declare they thoroughly enjoyed entertaining the Corn club boys during their visit last year, are flooding the office of Walter G. Cooper, secretary of the Atlanta chamber of commerce, as the result of a circular which he has sent out to entertain them.

Last year 400 Atlanta homes were opened to the Corn club boys, 700 of whom came from every section of the state to participate in the annual show. This year there will be more than 1,000 boys competing for the many prizes offered by the show committee, and the people of Atlanta will again be called upon to entertain them.

Among the ladies, whose interesting replies to Secretary Cooper's letter have already been received are Mrs. William L. Peet, Mrs. Linton C. Hopkins and Mrs. Mary M. Mason.

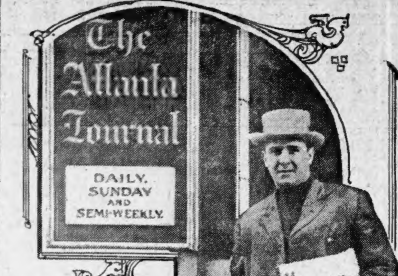

WOMAN DROWNS SELF IN CITY'S RESERVOIR

Miss Leila Reed, Fearing Life in Sanitarium, Takes Short-cut Way Out

尸体 was the verdict at the inquest over the body of Miss Leila Reed, 37-year-old, found Sunday morning floating in the new Howell Mill pond reservoir on Hemphill avenue. Her husband, John Reed, a brother-in-law of the dead woman, made the discovery, and the body was held Sunday afternoon by coroner Donohoe at Harry G. Pooler's undertaking establishment.

At the Reynolds home, where Miss Reed lived, it was stated that she had repeatedly threatened suicide. Saturday night she was missed shortly after dinner and a search was started for her. When found, the body showed evidence of having been in the water for about twelve hours. Fear of the sanitarium is suggested by the Reynolds family. Plans to send her to an institution had been arranged, and it is thought that she learned of this and at once set about ending her life. She had been living with her brother-in-law for several years. Her husband was a farmer in Forsythville, Ga., where funeral services and interment will take place Monday afternoon.

THAT WAS SOME NOISE MONDAY WHEN "CHIMMIE," KING OF NEWSIES, MADE HIS BOW TO ATLANTA

"Chimie" McFadden, King of the Newsies

If You Didn't Hear Him Then, You Can't Afford to Miss His Show Tonight—His Lung Power Is 871-2 Pounds, He's Selling Journals Now

At 9 o'clock Tuesday morning wind went up with a crash, heads ducked out into the chilly air and voices buzzed in a chorus of "What's the matter? What's the matter?"

White beams across the Fourth street bridge, floating down to the city hall, knocking at and turning off main to go rolling out across the heart of Atlanta was a noise, a strong noise that was a crash between the rear of a wounded bull and the horn of a wolf-pack, dinged with the cheer of a whole college and a mayoralty election crowd.

"What on earth?" said a man in a lawyer's window to the boy in the architect's. "Why, that's Chimie McFadden, I reckon," said his neighbor. "And it was 'Chimie,' king of the newsies, and the guy with the big voice, who was just trying out his lungs for a week, show local newsies how it should be done, and tell 'em a few other things as well, how, for instance, it

should never pay to hit the other fellow when he's down; not to repeat and various other creeds of boy life that Chimie has learned from his own experience as a newsie, starting when he was a kid in Chicago and extending over some ten more years to today, when he is still a newsie, president of the American Newsies association, and the champion paper carrier of the world.

At noon Monday Chimie was out on the streets selling The Journal from Forsyth street. Fences along and back to the Terminal station. From 5:15 o'clock to 6:45 o'clock he was out on the streets, selling The Journal, and judging by the tremendous batch of local newsies who were at the voice Monday noon, he will be the champion of the world.

But Chimie's tuning up early Monday morning will be an nothing compared to what he intends to turn loose at 9 o'clock Monday night. At that hour Chimie will mount the Fourth building, right in the middle of Atlanta, and yell.

any night when he will yell once from the top of the Hart building. Chimie is in Atlanta to sell Journals for a week, show local newsies how it should be done, and tell 'em a few other things as well, how, for instance, it

FOREIGN MISSIONARIES IN SESSION IN ATLANTA

Delegates From All Parts of World Tell of Their Experiences

Missionaries from all parts of the world were expected to be present Monday at the meeting of the Christian and Missionary Alliance, 63 Capitol avenue. The organization, which is non-denominational, has more than 700 workers in all parts of the world and estimates its property values in millions of dollars. Delegates from every state in the union are also expected.

The exercises Monday were opened by Rev. William E. Combs, of Lomberton, N. C., at 9:30 o'clock. At 3 o'clock a testimonial meeting was held. Mrs. William H. McDuffie, of Durham, N. C., will lead the meeting at 3 o'clock. Mrs. McDuffie has recently returned from the mission, where she has been a missionary for a year.

There will be a children's meeting at 4 o'clock. Illustrations will be given of various missions. A special feature of interest is said to be more wonderful than the movies. This service will be led by Mrs. R. A. Forrest.

At 7:30 o'clock an evangelistic service will be held by Rev. William T. McArthur, a Baptist minister, of New York City. Mr. and Mrs. Howard Van Dyke, missionaries to central China, who live in the center of the recent Chinese revolution, will narrate some of their interesting experiences at this meeting.

The program will continue during the week. Many noted missionaries and speakers will attend.

George Dyer, McCulloch's organist, "Truxton King," has been dramatized by Miss Genevieve Hayward and will be presented at the Lyric theater all this week, opening Monday evening. "Truxton King" is one of the greatest romantic epics ever written and is a continuation of life in Graustark, Mr. McCulloch's two former books, "Graustark" and "Beverly of Graustark." He made excellent dramatizations, but Miss Hayward believes that in her dramatization of "Truxton King," she has delivered to the world a dramatic masterpiece. It is really a gem of a story. It is filled with thrills, romance, swash-buckling, love and adventure. It is a story that satisfies the most blasé player.

A side-splitting face comedy, entitled "A Runaway Match," is scheduled for Monday evening at the Lyric theater. This clever farce, written by the Lyric company, has given the stage such splendid plays as "The Man of Mystery," "The Unwittles Law," and other plays popular with theatergoers.

ATLANTA—Last Days of Pompeii. Pompeii—Yesterday. Pompeii—A Runaway Match.

The Paquali photo-drama, "The Last Days of Pompeii," will be seen at the Atlanta theater for three days, starting today at 1:30 o'clock. Daily matinees for ladies and children will also be given. The pictures were taken in Italy under the direct supervision of Mr. Paquali. His great studios in Rome and Turin were utilized and the entire second part was posed for in Pompeii and at the foot of Mount Vesuvius. Ten thousand people were engaged in the production, among them were a number of Italy's most prominent stage favorites. The performance continues two hours.

Close acquaintance with the lovable character of Louise M. Alcott's story "Little Women," will be the privilege of Atlanta theatergoers on Thursday, Friday and Saturday, with daily matinees. The play will be presented by William A. Brady exactly as it ran last year at the Playhouse, New York.

Good entertainment has established the Lyric theater as the busiest theater in Atlanta. It is more popular than ever in all its bright history and because of the quality of vaudeville a progressive management has installed on the stage acts appearing in the exclusive Keith theater, come direct to Atlanta, and hundreds of persons have permanent reservations season in and season out.

The bill this week promises to be one of the most delightful of the season. There is splendid variety, good instrumental and vocal music and comedy and drama properly blended.

Atlanta Y.W.C.A. Joins In One Minute Prayer Of World's Workers

At 9 o'clock Monday morning members of the Atlanta Young Women's Christian association joined for one minute in the world-wide prayer for which members of both the Y. W. C. A. and the Y. M. C. A. in all cities have been asked to signify their interest and support in the campaign the two organizations in New York have started for the purpose of raising \$400,000 in the record time of two weeks. Two million members all around the world were asked to join in the prayer at that hour when the campaign in New York was launched.

Charles S. Ward, director general of the New York movement, who is also international secretary of the Y. M. C. A., has raised more than \$200,000 for the Young Men's Christian association in the last eight days during the last eight years; but the present campaign is the largest he has ever undertaken. He has organized a thousand volunteers into ten committees of 50 each, and each committee is sub-divided into ten divisions of ten workers each.

Every day these committees will meet at a luncheon at campaign headquarters where 400 of the leading workers will be present to start progress. George W. Perkins, the chairman of the executive committee.

The progress of the campaign will be recorded for the benefit of the public on a 20-foot electric light tower at the top of the Metropolitan tower, and on a 10-foot clock at the top of one of the tallest downtown skyscrapers.

BEST AUTO MARKET IS GEORGIA FARMER. SAYS SHOW VISITOR

Inspecting the automobile engine, a number of factory experts will take the spectators in charge and show them the technical points of the machinery. Especially interesting to the engineering students are the new coal oil burning engines in the Henderson, the noiseless, pop-pop engine shown in the Lynch-Bellamy cars and the electric and compressed air starting devices.

Several exhibits were made incomplete Saturday due to place now and other cars are being rushed by express for the opening. There isn't an inch of space to spare in the main building of Earl Hall, and it will take a bit of queuing to place the late arrivals.

FLORIAN PARADE TUESDAY. While the exhibits are there and the managers busy, the big show really begins Tuesday, with the floral parade and the opening concert by John Philip Sousa and his great band. More than a thousand cars will enter the parade all dressed in artificial flowers, silk and satin and crepe paper, and all trimmed for first prize.

George D. Hutchinson, of the Dutch branch, was happy Monday over the arrival of the first six ever sent south by his factory. It is a great blue beauty, as long as the car, with a motor that runs and a motor big enough to pull it to town.

The Overland southern people are proud of their new baby, too. Manager W. S. Becker sat on a pile of white flowers to handle the new Overland gas motor. He said the parade will be a luxurious one and a electric and roomy enough for the farmer.

The Mitchell exhibit was completed Monday, when manager Dozier ready the several new cars. The Mitchell exhibit is interesting, too, for its display of separate parts, neatly every nut and bolt in the chassis being shown on a table.

P. J. Stear, long identified with the Warner automobile and the "Vesta" lights, surprised his friends by showing up at the Cole exhibit. It was announced that he would be with the Cole Motor Car company in this territory in the future.

The parade is scheduled to form at 10 o'clock Tuesday morning. It is expected that when Mr. Sousa and his band arrive that they will parade directly from the Terminal station and use the plaza at the head of the procession.

Behind the official car of the Atlanta Automobile and Accessories association, in which will be seated the president, R. N. Reed, and several officers of the association will be a big parade containing the members of the band.

While he is able to get out of the musical instruments in time for the parade, the FIRE department will be on hand to furnish martial strains. Newly every automobile dealer in the city will be decorated with the charmingly decorated floral truck, with various decorations and individuals have entered their cars for the prizes offered.

SUPPLIERS TO ENTER. The Atlanta Equal Suffrage association will take advantage of the floral parade to encourage its members to actively decorated with "votes for women" slogans and with natural instead of artificial flowers.

One of these cars will be driven by Miss Maudie Matthews, of St. Wickenham terrace. She and other entrants will turn over the prizes, if they happen to win it to the association.

Two prizes offered are as follows: First Prize—The Racine Trusty Truck and two Racine Country Truck Non-Block tires, valued at \$25. Second Prize—New Empire tires valued at \$25 and \$25 in cash, making a total value of \$75.

STATE AND DEFENSE REQUEST DELAY IN FRANK ARRESTS

Both sides, stated that they would give their decision in the matter in the course of a few hours. Before noon, Clerk Harrison called the attorneys and told them that the judges had decided that the routine procedure could not be changed for the occasion.

The clerk of the superior court is allowed by law only fifteen days in criminal cases to file with the supreme court the records in appealed cases. Judge L. S. Sloan stated, Frank's motion for a new trial on October 31, and on the same day, the record was turned over to the clerk's office.

The denial by the supreme court of the attorney's request means that they must rush the preparations of their brief in the case, which will themselves be very voluminous documents, the preparation of which is a case to itself.

There is no set rule in the supreme court as to how long after a case is argued that it is passed upon by the tribunal, but it is usually thirty and sixty days.

Conley, they point out, will then be immune from further prosecution himself, and if his testimony against Frank was a lie framed up by the negro to protect himself, there can be no reason for his carrying it any further.

The negro has been in close touch with his attorney, William M. Smith, and is said to fully realize that after his plea is entered that he is safe, and could count on only without fear.

Frank Conley will point out to the negro that if he is really guilty that there is absolutely no reason for his allowing innocent men to hang and thus have a second crime upon his head, and to induce the police to make an effort to secure a confession from the negro.

Prisoners was on the way to support. It was an opportunity when the negro was not looking, he sealed a high fence and escaped from the prison. He had heard of he was headed towards Atlanta, and had five years yet to serve.

WOMAN HEARS OF OWN 'MURDER' FROM OFFICERS

Flournoy, E. C. that he had received a telegram saying a negro servant had found his wife murdered in their Pezco de Leon avenue home. The neighbor, a woman, who was alone in her home, not wishing to go alone to investigate the murder of her friend, called for the police, and Assistant Chief E. E. Just headed the squad which rushed to the scene of the 'murder.'

PHONE OUT OF ORDER. According to the neighbor, Mr. Hepburn stated he had tried to get his wife over the long distance phone and the operator had reported she could not get the number to answer.

Mrs. Hepburn said that sure enough the telephone had refused to work that evening. She tried for an hour to get central and only a peculiar buzzing sound greeted her each time she took down the 'caller.'

The police immediately hit on the case but that was evidently wrong as Monday morning the telephone was in order again and no work had been done by it.

do now Mrs. Hepburn says the whole affair is a great big question mark. 'Who sent the mysterious telegram to her husband, and how did it happen her phone was out of commission just long enough to make the telegram seem serious?

The police were inclined to attribute the whole matter to the work of a maid, but Mrs. Hepburn's servant, three weeks ago, and she is sure the maid was not the perpetrator of such a ghastly job.

I have telegraphed Mr. Hepburn that I am very much alive," said the principal of the unusual mix-up Monday morning, "and I am going to do everything possible to find out who sent the telegram and so clear up the 'mystery.'

The life sentence of Henry Smith, a Newton county negro, convicted of the murder of another negro, was commuted to life imprisonment by Governor Slaton to time already served and as soon as the commutation papers reach the county convict authorities at Covington Smith will be released.

Smith owes his good fortune in the main to Judge A. D. Meadows, ordinary of Newton county, who interested himself in the negro's case and for several weeks had protected his release. There were extenuating circumstances, it is claimed, which led to his being pardoned.

Smith in attacking the other negro, it is claimed, was a free man. He took the convict camp bloodhounds and ran away with the negro, who had escaped from the camp and had five years yet to serve.

Frank Conley will point out to the negro that if he is really guilty that there is absolutely no reason for his allowing innocent men to hang and thus have a second crime upon his head, and to induce the police to make an effort to secure a confession from the negro.

War against fuel waste

The Balkan war with all its waste and destructiveness does not equal in cost the annual expense bill to the people from the wastes of old-fashioned heating. The one best way to rout this army—the army of excessive coal-bills, repair bills, redecorating and refurbishing bills, which are always found in the camps of old-fashioned heating, is to install an outfit of IDEAL Boilers and AMERICAN Radiators will solve your heating problem—solve it for the rest of your days—get the most heat out of the least coal. With these outfits there is no "undigested" coal—nor is the heat wasted up the chimney—nor the rich fuel-gases allowed to pass off unconsumed. These outfits yield only the most genial, cleanly warmth and distribute it steadily and uniformly throughout all rooms, bays and halls.

AMERICAN RADIATORS & BOILERS

There is comfort, health-protection, household cleanliness, least care-taking and safety. Fire once started need not be rekindled in the whole heating season. So simple a child can run the outfit—which will, without repairs, last as long as the building in which it is put. Because of the economies and sure comfort guaranteed by IDEAL Boilers and AMERICAN Radiators, they are specified, used and endorsed by the leading engineers, architects and building contractors of America, Europe and Australia. Their annual sales are increasing mightily!

No need to burn high-priced coals—IDEAL Boilers are made to get the maximum, smokeless results from burning even the cheapest screenings, slack, pea-coal, run-of-mine, low grade soft coals, lignite, slabs, natural gas, oil, etc. These outfits are a dividend-paying investment—not an expense. Buildings thus outfitted sell quicker at the higher price or bring 10% to 15% higher rental.

Whether owner, tenant or intending builder, do not delay investigating this best-paying feature in any building—whether office, farm house, store, school, church, public building, etc. Ask for free, valuable book "Ideal Heating." Prices now most favorable.

AMERICAN RADIATOR COMPANY Write Department No. 2 310-22 St. Louis, Mo. Chicago. ARCO WAND Vacuum Cleaner—built into the house. We also make the ARCO WAND Vacuum Cleaner, connected by iron suction pipe to various floors of houses, flats, schools, churches, hotels, etc. Through a light-weight hose ALL the dirt, cobwebs, lint, threads, moths, etc. are drawn with lightning rapidity down the iron piping into big, sealed dust-bucket in cellar. The ARCO WAND is a practical outfit that is a part of the building—the race heater.

SUNDAY SCHOOLS SHRINK ON FIRST COLD SUNDAY

Attendance Record Shows Loss, but Even That Beats Last Year's Figure

Sunday's cold weather caused a shrinkage in the number of Atlantans who attended Sunday school. The decrease in attendance was especially noticeable as the Sunday schools for the past several months have been crowded, but, even with comparatively small numbers in attendance Sunday, the attendance record is being maintained for statistics show that there were more at Sunday school yesterday than on the same Sunday last year.

Boy of 14 Loses Both Legs Beneath Train

Vincent Bakerstrom, aged fourteen, of 181 Julian street, was run down by an A. & A. train Monday morning and sustained injuries which necessitated the amputation of both his legs. The lad, with his younger brother and sister, was endeavoring to cross the tracks when trains from both directions came along. He was caught between them and his legs crushed. Earlier in the day the boy had gone to town in an effort to secure work and returning, unsuccessful, was confronted with an empty coal bin. With out money to buy any, the three children started towards the Jefferson street crossing and had just begun gathering stray lumps when the accident happened.

BAPTIST WOMEN MARK MISSIONS ANNIVERSARY

Georgia Union Workers Begin Two-Day Celebration at Tabernacle With Many Visitors

The Baptist women of Georgia will begin Tuesday at the Tabernacle the celebration of the twenty-fifth anniversary of the founding of the Woman's Baptist Missionary union, the auxiliary to the Southern Baptist association. Seven hundred delegates will be entertained during the convention, which will last through Tuesday evening, and at the same time all over the south other women will assemble, for similar celebrations.

President Baptist women from all parts of Georgia will attend the jubilee, and the women of the city are planning to make their visit interesting and entertaining.

Mrs. W. J. Neal will preside at Tuesday morning, for which interesting programs have been prepared.

On Tuesday morning at 7 A. M. Mrs. J. C. Lester will deliver an address on the "Pioneering Work of the Woman's Baptist Missionary Union," and Mrs. J. C. Lester will give the history of the organization.

Miss Marie Buhlman, of Baltimore, a missionary who meets all the large cities entering that port and takes care of the immigrants, will have a prominent place, and her address are anticipated with interest. She will lead the prayer service Tuesday morning.

A. H. Conroy, of Carterville, will be asked for the convention.

On Tuesday afternoon Miss Sallie Priest, of Shanghai, China, will take on "Permanent Foreign Mission Equipment," and Mrs. H. H. H. Hook will be the other speaker.

On Tuesday evening Mrs. Sam D. Jones will preside at the meeting and Miss Buhlman, Miss Priest, Miss Hook and Mrs. M. H. McClure, president of the Missionary Training school, will deliver addresses.

On Wednesday will begin the regular sessions of the Woman's Baptist Missionary union, and these will last through Friday morning.

The hospital committee asks that Atlanta women volunteer as hostesses for the visitors, as more homes are needed in which to entertain the delegates. The president of the union Mrs. J. C. Lester, of West Point, is vice president; Mrs. George Westmoreland, Atlanta, corresponding secretary; Miss E. L. Amos, Atlanta, corresponding secretary; and Treasurer: Mrs. H. H. Hall, auditor, and Miss Ruth Jinks, state worker.

The vice presidents are: Northeast division, Mrs. W. H. Price, Westmoreland; Northwest division, Mrs. D. B. Hamilton, Rome; southern division, Mrs. H. Williams, Dublin; southwest division, Mrs. Charles Carter, Gainesville; and vision, Mrs. P. G. Antwey, Manchester.

CITIZENS OF DECATUR WILL BOOST GEORGIA PRODUCTS

A committee of the Decatur board of trade will meet in the office of the organization at 8 o'clock Monday morning to arrange details of Decatur's big "feet" on November 11.

A distinctive feature of the occasion at Decatur will be that the women of the town will be present.

Every citizen of Decatur will be asked to participate in the movement to boost Georgia products.

MUST SEEK ANOTHER ORGANIST FOR ATLANTA

Prof. Zech, of Chicago, Released From Contract Because of Breakdown

Prof. William Zech, of Chicago, the famous organist engaged by the Atlanta Music Festival association to succeed Dr. Percy Stewart as musical organist, has suffered a nervous breakdown and will not come to Atlanta.

A telegram received by officials of the Music Festival association announced Prof. Zech's illness and requested that he be released from his contract here. The request was granted and the association will immediately make efforts to find another concert organist for Atlanta.

Only a musician of the highest talent will be engaged. Before a selection is made several of the foremost organists of the country will be brought here to play, and from among these one will be selected to fill the place of musical organist for Atlanta.

"What made you reject that man?"

I asked an army sergeant on recruiting service, as a broad shouldered would-be soldier was turned away. "Bad teeth!" replied the sergeant. You would be surprised to know that from six to eight per cent of the recruiting army of the United States in the U. S. Army within one year were rejected because of defective teeth. And that thirty-five per cent of the dental cases in the U. S. Army were directly traceable to diseased conditions.

Perfect cleanliness of the teeth is absolutely essential to good health. A pleasant, sure way to perfect cleanliness is the Colgate Ribbon Dental Cream, and this a year visit to your dentist.

Such Art Bronzes are Found Only in Museums Connoisseurs and lovers of art in general are invited to see the Viennese Bronze Art Pieces personally selected in Vienna by our foreign representative. In their classic, chaste lines these Bronzes portray the purest art. Some are reproductions of famous statues and paintings, but most of them are original conceptions and bear the artist's name.

Variouly developed in bronze, and bronze with carved ivory. Many of them rest on bases of Onyx. The subjects embrace the famous music masters: Wagner, Brahms, Beethoven, etc.; also characters from their Operas. An Arab on a Prayer Rug conveys a touching bit of sentiment, while an old man kneeling to a water Nymph causes a smile. The mechanical arts are represented by classical subjects indicating Electricity, Surveying, The Telephone and Manufacturing. Then there are desk pieces including cigar cutters and trays and paper cutters and a score and one ornamental piece.

So far as we know there is no other such display south of Washington, and very few such displays—outside of museums and exclusive art stores—in the whole country. Being our own importation these Bronzes are marked very reasonably. From \$1.50 to \$75. Postscript—Many of these bronze art pieces are now displayed in one of our windows. (Main Floor, Center.)

MRS. SLATON TO MAKE BISCUITS FOR BANQUET

Georgia Products Dinner to Have Tickets With Coupons Calling for Things at Stores

Mrs. John M. Slaton, wife of the governor and first lady of Georgia, will make with her own hands the beautiful biscuits to be served at the Georgia Products dinner on the evening of November 18.

The Georgia dinner project is growing larger and larger. The original plan was to have the dinner at the Georgia Hotel, but it is now to be held at the Georgia Hotel.

Invitations have been sent to Senators Bacon and Hoke Smith and to Georgia's congressional delegation at Washington. D. C.

The following ladies have been chosen as judges for the prize menu contest: Mrs. William C. Newman, Mrs. Fleming Doherty, Mrs. A. C. Chandler, Mrs. Morris Hines, Mrs. C. H. Barnes.

Tickets will be put on sale about the middle of this week. Each ticket will be as long as a thorough railroad ticket from Atlanta to any point in the state.

Atlanta Girl Comes Home From Shorter College Just So She Can "Steer for the Cause" Tuesday

When the big motor parade of the great southern auto show moves down Peachtree and Whitehall streets Tuesday morning there will be three cars that are sure to attract attention.

Not an opponent of the cause, although they will be the most modern of machines and will be beautifully decorated with fresh natural flowers, the significance will lie in the big banners stretched along the sides proclaiming "Vote for women."

WHITEHALL ST. GRADING UP TO CITY GARD NOW. Chairman Shelby Smith Says County Has Gone as Far as It Can With Work

Shelby Smith, chairman of the board of county commissioners, said Monday that Tuesday night the county will have done all the work it can on Whitehall street until the city and utilities corporations complete their share of the work.

Most cars are very much alike. They are good or bad in the same ratio. Carters have a Gearless Transmission—that's why they are simple.

Actually, it is fun to sell Carters. Prospects who have been "bounced" almost to death, like to get out with a Cartercar dealer—and sell the car to themselves.

It is sure and see this simple car at the show. This is its eleventh year of continuous success.

WATER MAINS ORDINANCE BRINGS WARM DISPUTE

Omission of Streets in Official Measure to Be Rectified by Including Missing Ones

A motion to amend the bond ordinance so as to permit of the laying of water mains on any street in the pamphlet submitted to the voters on the bond issue, but not included in the official bond ordinance, and a second motion, made by Mayor Woodward, to recommend that some of the bond money should be used to lay water mains on streets not included in either the bond ordinance or the original pamphlet, created a long discussion Monday morning at a called meeting of the water committee of the bond commission.

Chairman F. A. Quillen stated that when the question of a bond issue was put before the people a pamphlet was issued outlining the proposed expenditures and that that pamphlet was what the people of the city thought they were voting on when they passed the bond issue, but in the bond ordinance streets that were not included in the pamphlet for water mains had been left out.

There are between 20,000 and 30,000 feet of street not included in the ordinance, and on motion of F. L. Avery, the members unanimously voted to recommend to council that the bond issue be amended so as to include those streets.

The mayor offered a motion as a substitute for Mr. Avery's motion which he suggested that the bond ordinance be amended so as to include only the streets that are in urgent need of water. This motion was warmly discussed.

Chairman Quillen said he had given the word to the people of Atlanta that the bond money should not be spent for a single thing except that which was outlined in the bond issue, and that, personally, his position was that the bond commission could not accept a single cent for any other purpose.

The mayor declared that several had been laid by somebody in old fields and that the streets should be laid by the people who wanted to develop that part of the city.

Both recommendations will be submitted to council. The commission also voted to recommend that the bond ordinance be amended wherein it specifies a six-inch water main on North Avenue between Gray and Ashby streets, so as to provide for a six-inch main only.

FERTILIZER RATE FIGHT TO COME UP TUESDAY

Mixers Want Reduction on Raw Materials and Railroads Oppose It

A hearing of great interest to the railroads in Georgia as well as to all the fertilizer manufacturers and fertilizer mixing companies in the state will be held by the railroad commission Tuesday when it takes up for consideration the petition of the fertilizer mixers concerning a 25 per cent reduction in freight rates on bulk acid phosphate, kainit and other materials used in the mixture of fertilizers.

Under an old classification of the railroad commission, fertilizer materials move at the same freight rate as is charged for fertilizers. The positioners, composed of the mixers at various interior points, state the position that the freight rate should take into consideration the value of the fertilizers as compared to the raw materials which enter into its composition.

HITCHCOCK LAYS BACK IN CURRENCY HARNESS

Senator Balks at Caucus and Declares He Will Not Yield, "Even to President"

(By Associated Press.) WASHINGTON, Nov. 10.—Senator Hitchcock today attacked the proposal to take the currency question into a Democratic caucus.

Mr. Hitchcock spoke after the committee had worked in vain all morning to reconcile conflicting views.

The senator concluded by suggesting that the senate might order a report in a certain time or discharge the committee.

WARMER DAY AHEAD; STORM CRIPPLES WIRES

Mercury Drops Well Below the Freezing Point, but is Going Up Again by Tuesday

The cold snap which swept down on Atlanta Sunday will change to warmer weather by Tuesday morning, according to predictions at the weather bureau shortly after noon Monday.

"It will be just about 50," declared the weather man. "At 1 o'clock Monday afternoon the thermometer marked 40 degrees.

The cold of Sunday was intensified by a high biting wind, and the streets of the city were practically deserted.

Lake Erie's southern borders reported twenty inches precipitation. Abnormally low temperatures throughout the storm were added to droughts that the blizzard carried.

WILSON HAS CONFESSED, DEPUTY SHERIFF SAYS

Former Cashier of Bacon Produce Co. Said to Have Admitted Embezzlement

According to Deputy Sheriff Lee Magwood, who Saturday arrested E. A. Wilson, former cashier of the S. W. Bacon Produce company, who was indicted by the grand jury for embezzlement of the company, Wilson has confessed to taking the money and is ready to take punishment.

"I am guilty," Wilson is said to have confessed. "I am going to take my medicine. I am not even going to get a lawyer."

The indictment against Wilson was returned last Friday following the appearance of Mr. Bacon and an auditor before the grand jury.

WHITSON TRIAL OPENS IN MURRAY COUNTY COURT

(Special Dispatch to The Journal.) DALTON, Ga., Nov. 10.—The Whitson murder trial occupies the center of interest in Murray county superior court, which opens at Chatsworth this morning for the regular November term.

Tom Whitson, charged with murder, is one of Murray county's prominent farmers. It was at his own call that his fireman, a man named Smith, was killed by Whitson as Whitson was going to his house to pay him his wages after he had discharged him for inefficiency.

Whitson's plea is self defense, claiming that Smith was raising a fight to show him when he drew his pistol and shot him down. The prosecution has no evidence to the killing.

From the nature of the controversy a compromise was expected, but none of the arbitrators would say how far the employees had gained their demands.

Huerta Nears the End.

The hours are growing short now for Victoriano Huerta, last dictator of Mexico. With his treasury practically empty save for the remains of an unwarranted loan by a British syndicate, and that hardly sufficient to run him until the first of December...

The surprise among newsmen at Washington is that the United States government has given Huerta until Monday night to reply to its latest note. This will come to the notice of our observers in Mexico City as well to speculate that it will be further intervention by our forces...

Don't Spend It All.

There is much sound wisdom in the advice offered by the assistant agricultural commissioner of Georgia to the farmers, that they should not allow the prosperous year just past to draw them into extravagance.

If that advice is followed by any large proportion of the state's farmers, nothing can hurt Georgia.

When the plague of the boll weevil descends upon us, it will be fine then, if they can laugh at it and go on raising their early-maturing cotton and their food crops as though it did not exist.

THE FRIEND

By FRANK GRAY. Copyright, 1913, by Frank Gray.

A friend is a person who is "for you," always, under any suspicion. He never investigates you. When charges are made against you, he does not ask proof. He asks the accused to clear out.

What ever kind of coat you are wearing suits him. Whether you have on a dress suit or a victory shirt with no collar, he thinks it's fine.

He likes your meekness and enjoys your pessimism as much as your optimism. He likes your success. And your failure endears you to him the more.

He is the one being with whom you can feel safe. With him you can utter your heart, its business and its goodness. You don't have to be careful.

There are many faithful wives and husbands; there are few faithful friends. Friendship is the most admirable, amiable and rare article among human beings.

A friend is an inalienable citizen of refuge in the straits of existence. He is the one being who will give you a helping hand.

What the president objects to is not careful consideration or unobsequious flattery, but unnecessary delay. We do not suppose for a moment that the anti-trust bill action upon the bill in the few remaining weeks of this session is an admirable purpose in keeping the subject wholly alive and in evoking discussion.

Canned Food Is Here to Stay

The demand for canned food is a natural one. Canning has left the home and gone to public use.

It is still not uncommon to hear a housewife say with pride, "I'll get all my vegetables and fruit never buy a can of anything."

Here is a fine, yet mistaken enthusiasm. Even though she cooks her time and goes to public use, a woman cannot can and preserve her vegetables and fruit until the heat of the great canner.

How to Speak Chinese

At the University of London recently a lecture was given by Dr. Jones on the pronunciation of Chinese, and the lecturer pointed out that the difficulties of learning the pronunciation of Chinese through real English, have been rather exaggerated by those who have written on that subject.

The chief thing to remember is that the study of Chinese is a matter of studying rather than talking. Mr. Jones said in English the variations in tone as we talk mean variation in expression.

A little of the Chinese method is present even in our own language, and the lecturer pointed out that the simple word "yes" may be varied in tone as to mean "I'm in the case," "Of course it's the case," "It is really so," and "And it may be so, but I'm not quite sure."

To a Mocking Bird

O singer of the twilit solitude! When moon-veiled oaks sigh at my weary dream, Beside the willow heron-hunted stream, Thy laughing voice booms like my melody.

My old heart weeps no more, no more refrain. Thy song is sweet, thy voice is clear and true. No joyous life thy high-sounding strain.

Pecan and Walnut Industries

By FREDRICK F. HASKIN.

The pecan and the Persian walnut are the two objects upon which the American nut growers are concentrating their greatest attention.

The Northern Nut Growers' association has sent out a much longer list of questions regarding the Persian walnut and the extension of its growth.

FIGHT ON LOCKER CLUBS OPENS AT MASS MEETING

Committee Appointed to Look After Enforcement of Prohibition Law in Atlanta

Exhibits of unopened bottles of whisky, said to have been illegally sold by Atlanta locker clubs, were on display at the Georgia Anti-Saloon League's mass meeting at the Grand theater Sunday afternoon.

Several hundred citizens attended the meeting and after the adoption of resolutions pledging those present to engage in a vigorous campaign for the enforcement of the prohibition law, a committee was appointed to be known as the "law enforcement committee of Atlanta."

Those named and urged to serve upon this committee, follow: Thomas K. O'Connell, R. K. Kline, Walker D. Brown, H. M. Dabow, W. H. Dabow, Lloyd D. Bess, Charles W. Dabow, Hugh Walker, I. W. Ross, W. A. Albright, Louis W. A. Ward, F. Anderson, Charles D. McKinney, R. A. Hemphill, W. E. Loftis, L. T. Stallings, W. Avery, George Gordon, J. A. Williams, J. E. Williams, J. H. Williams, William J. H. Andrews and E. B. T. Williams. This committee is expected to hold its first meeting Thursday and outline its work.

Dr. H. M. Dabow, chairman of the law enforcement committee of the league, presided over the meeting and made an official speech. He called attention to the existence of liquor in Atlanta, which had been purchased from various lockers by persons who were not members of these organizations. The names of the clubs were not given.

CHARGE OPEN VIOLATION. The speaker charged that the clubs, brewers and near-by saloons were openly violating the provisions of the prohibition law and the law enforcement committee was charged with the duty of enforcing a vigorous action from the police department and the Fulton county grand jury.

Resolutions adopted by the meeting were in part as follows: "That it is the sense of this mass meeting that these flagrant and persistent violations of law should be deemed unworthy of respect and that every possible legal step should be taken to strip and punish all individual violators of these laws, and that the responsible or culpable representatives of all organizations or individuals engaged in the sale of intoxicating liquors, or in the illegal dispensing of the same.

That this meeting hereby calls upon the police authorities of the city to undertake the most searching inquiry into the charges that money, pocket knives and other social organizations are systematically violating the prohibition laws of the state, and that rates of liquor are being made available on the streets. The attention of the present grand jury of Fulton county is also called to these charges, which are of common currency on the streets and elsewhere."

At their meeting Monday morning the Methodist ministers of the city adopted resolutions endorsing the foregoing mass meeting at the Grand Sunday evening. These resolutions stated that the ministers were in hearty accord with the movement to bring about a rigid enforcement of the prohibition law.

Man Held for Robbery Bob Farris, alias Charles Farris, was held by the movement in jail at the suggestion of the robbery on October 8 of the postoffice and two stores in the Union City. Postoffice inspectors went to Marietta Monday to examine Farris, who, they say, had several articles missing from the store. The amount of money stolen was small.

Rod Right, Says Shuler Recorder Nash Broyles sent notices concerning the old-fashioned game of dominoes to the children who have drawn the attention of the pastor, Rev. Allen L. Shuler, pastor of the First Side Tabernacle, declared in his sermon Sunday that the game is wrong in thinking that anything can take the place of the rod in the upbringing of children.

"INVISIBLE GOVERNMENT" RAPPED HARD BY LABOR (By Associated Press.) SEATTLE, Nov. 10.—"Invisible government" by organized dollars" was scored in the report of the executive council of the American Federation of Labor to the thirty-third annual convention, which began here today. The report, which was the result of investigations and the charges of M. M. Mohr, against the National Association of Manufacturers formed the basis of the attack. The reference to the National Association of Manufacturers was the least in the report. A review of testimony before the senate and house labor investigations was given, going into detail regarding the activities of what is termed the "invisible government," as embodied in the National Association of Manufacturers. The convention was called to order by President Samuel Gompers, Governor Ernest Lester and President E. P. Marsh, of the state federation of labor, welcomed the delegates. Delegates said the serious business of the convention probably would not be taken up until next week. Secretary of Labor William B. Wilson will address the federation Wednesday. The various trades unions will hold meetings this week to determine the action they will take on important matters to come before the convention.

Georgia Wants Tech To Play At Ponce Park

Claim Ponce Facilities for Handling Large Crowd Are Better Than Grant Field, but Tech Will Not Consent to Change.

The Athletic Association at the University of Georgia wants the game with Tech next Saturday to be played at Ponce Park, which Georgia men believe is not the case. Georgia alumni in Atlanta express the belief that Georgia will pay the whole amount of the ground rent at Ponce Park, if necessary, as an inducement to persuade Tech to make the change. The Georgia men have no objection to Grant field, but simply consider the street cars and other facilities at Ponce Park more adequate for the handling of a large crowd. According to W. N. Bonds, athletic director at Tech, there is no possibility of the transfer being made. Pending the matter Monday he said. Our contract specifies Grant field, the advertising base all over the state, and Tech will not consent to a change, as to seating, which would require 1,000 seats at Ponce Park when you eliminate the bleachers, which were added to the stadium because of the overflow crowd, because of the bill-board, whereas the banks at Grant field are all open. Tech's ground rent this year has been larger than they were at Ponce Park, which would seem to indicate the people have no trouble in getting there.

BRICKLEY, THE GREAT HALFBACK OF THE HARVARD ELEVEN

---BY RIPLEY

IT WAS BRICKLEY'S MAGICAL TOE THAT DEFEATED PRINCETON TIGERS

Brickley is back—and Harvard is happy. Brickley—the Frank Baker of the football world—the Crimson cracker who hits the ball on the nose and drives it far and away over the cross-bars with the same pan to the enemy and the same joy to his teammates as does the illustrious Trampus Terror. In Saturday's game against Princeton, on a field inches deep in mud, with the ball so slick and elusive that neither team could execute plays with any sort of certainty—in that heart-rending battle it was Brickley's educated foot that turned the trick and sent the Crimson home with victory. Five times Captain Hobbs Baker, of Princeton, tried to kick a field goal and five times he failed. Three times Brickley tried, and once he succeeded, and that one field goal won the game, 3 to 0. Not only is this ponderous Brickley a magical drop-kicker, but he is one of the fastest and strongest backs in the game, carrying his weight with express train speed and going through an opposing line like a snow plow.

Stop M'Whorter Is Tech Slogan Teams in East Hit Their Pace

By Associated Press. NEW YORK, Nov. 10.—Despite the handicap of muddy grounds, the playing centers uniformly favored a game Saturday demonstrating that they are moving into satisfactory form. The first games of the 1913 season, through defeat with the exception of Tech, the trend of improvement was evident, and both visitor and visitor had not looked forward to the game with any apprehension. That struggles strong in the East, and that Tech's victory was considered a foregone conclusion. In the case of Tech, there was a warning sign of form. The Red and Black, however, defeated teams developed surprising strength. The big man of the team, John Jones, was running around the track since his injury at the end of the season. A few days more healing and he will be in shape. The game was a hard fought one, and the Red and Black were victorious. The game was a hard fought one, and the Red and Black were victorious. (By Tom Moore.) NEW YORK, Nov. 10.—The baseball players' fraternity yesterday made public a sensational explanatory report which would give the national board of arbitration for changes in players' contracts, and the arguments it advances for these changes. Of the first request it says that a player is given ten days' notice of his unconditional release, such player should be permitted immediately to negotiate a new contract wherever he desires, but that at present he is not allowed to sign with any team outside the league in which he is playing. The second request that national association players shall receive ten days' notice before they can be released unconditionally—the statement argues that under his contract, "a player is bound for life or so long as the manager wants him, while the manager is not bound for the fraction of a cent."

Austrian Comes Here to Learn

(By Associated Press.) NEW YORK, Nov. 10.—An athlete from Austria will arrive in New York tomorrow to investigate the athletic system of the United States as was done recently by the German national Olympic committee, who is acting as the representative of the Austrian government with a view to the adoption of adopting for Austria athletic methods employed in this country.

Minor League Meeting Tues.

COLUMBIUS, Ohio, Nov. 10.—President Louis Holtzner, of the Central league, reached Columbus Sunday, being the delegate with voting power to arrive at the twentieth annual meeting of the National Association of Professional Baseball leagues, which goes into session here Tuesday.

CAVE BREAK NEWS JIM, LAYS TRAINER

That the Tech losing Jinx is broken is a sure thing now, according to "Tuck" Rice, the veteran who looks after water, liniments and other commodities of the Yellow Jacket squad. And his reason for this belief is based on his own belief that, after being good luck. The other day while the team was practicing a man went across for a couple of days. It was a strange notion that resembled a white and the man was afraid to move, but with the utmost dread of Coach Helman to hurry he arose to see that the man was all right. Three little litters that were playing right beyond the goal post. The man came from nobody, knows there are no cats on the ground, but the litters were taken to the dressing rooms and are being raised for insects by the boys in general and the manager in particular. Any one attempting to harm the cats would be immediately annihilated, for "Tuck" Rice says that the cats are good luck and that it is a sure sign of good crops, and as Tech's crop is football it means that the team is doing well. Tech has got the supernatural in its camp, says Tech, because they have got the supernatural in the camp.

Ritchie-Cross Ready for Gong

(By Associated Press.) NEW YORK, Nov. 10.—While Ritchie, the lightweight boxing champion, and Leach Cross, of this city, will meet in a fight at the Madison Square Garden, the postponement of the bout from Oct. 29, because Cross was then suffering an injury to a muscle in his left side, has furnished both boxers with ample time to get into condition. Ritchie has never boxed in New York, but his possession of the title naturally makes him a strong favorite over the local man, Cross is considered such a clever ring general, however, that the champion may have to extend himself to dispose of his man.

Tigers Star End Injured

(By Associated Press.) PITTSBURGH, Pa., Nov. 10.—Dave Jolly, president of the Players' Baseball Fraternity, for the presidency of the Federal League—and that is exactly how the baseball situation in the out-of-town cities stands today. This information comes direct from the mouth of the leading official of the Federal League, a man whose word can be doubted, said he today. "Mr. Jolly has agreed to take the presidency of the league if he is elected for three years, his salary to be \$1,000 the first year, \$2,000 the second year, and \$3,000 the third year. These figures are perfectly satisfactory to the Federal League officials, we have forwarded to him a contract made according to his terms. Schulte, Zimmerman, Tommy Leach and Brockmeyer, of the Chicago Nationals; Robert and Knabe, of the Philadelphia Nationals; Baker, of the St. Louis Cardinals; Jack Miller, of the Pirates; McKinnis, formerly of the New York Americans; Hobbitt and several other stars in the major leagues, whose names are for the present kept secret, have already signed Federal League contracts.

Yale Finds a Star Quarter

(By Associated Press.) NEW HAVEN, Conn., Nov. 10.—With the exception of Mattiace, Ainsworth and Yale football players came out of the Brown game Saturday without an injury. Ainsworth has a gash on his head but probably will be able to play against Princeton Saturday. Coach Ainsworth's Yale follows much encouraged, although the team has not yet displayed its usual form for the big game. That Wilson played so well at quarter was the most encouraging sign for with only a few days' practice he did nearly as well as Cronin, who is out of the game for the rest of the season with injury.

Eastern Teams, Poor at First, Have Rounded Into Shape

HANK'S TWENTY-SECOND DAY--HE GETS AN INSPIRATION FOR HIS MESSAGE

--BY FARREN

THE SPORTLIGHT BY GRANTLAND RICE

(Upon observing daily a Giant-White Sox score mingled with a cluster of football like ups.

The wind has come from out the North; The front is heavy in the ground; Another spring will reach us soon, And yet you still must stick around; Your hour struck some time ago, Whereat we tossed you in the bog, Six months of more was quite enough, You'd had your day--day be a hog?

Well get you back in early March, And now the time is brief between; So kindly beat it for a spell, And let us draw another scene; You ruled the sport page long enough, And though you kounded the One Best, Old Kipling put it strong enough-- "Let us forget--let us forget!"

We notice in an exchange that Honus Wagner has "played his last ball game." And it makes just as interesting reading as it did upon its first appearance some seven or eight years ago.

There was a time when the annual clash between Yale and Brown was one of the year's best offerings. But for 1913 makes a noise considerably less than that produced by a terrific head-on jam between the Browns and Cardinals.

TAKE YOUR PICK Either college football material this fall has been unusually brittle and prone to dismemberment. Or--

College correspondents have been unusually desirous of fitting an allotted amount of space. Or--

The brutalization of the game could still move a step further on and set back the ping-pong stage.

In any event, we have yet to observe a college that hasn't more earnest athletes in the hospital than it has on the football field.

(Honus Wagner says that young O'Ryan, his half back, hasn't greater football promise than Jim Thorpe. If this is true the authorities should set at once before Mr. Thorpe commits manslaughter. A number of bones who tackled Thorpe a year ago are said to have queer, uncanny sores still rising in their blocks.

As the World tourists can only take a certain number of baseballs along through lack of storage room there is a movement on foot to leave Sam Crawford and Tim Lincecum behind. The two teams are booked to play on too many small islands after leaving U. S. soil.

"I have nothing to say about baseball," remarked C. W. Murphy as he passed through New York. Boy, page old Doc Millenium. He's just around the corner.

PROBABLY NOT A BIT IN THE WORLD. My Dear Sir--Why all this outcry about numbering the players? With twenty-two sets of numbers all twisting and writing in one heap, what good will it do?

The football experts are not bothering over the petty details as to who make the 5, 10 and 20 yard runs. But they would esteem it fairly to carry a faint idea as to the monicker attached to the cone peeing off the 70 and 80 yard runs for a touchdown. It isn't fair, for example, to credit Smith with a 70-yard run when Jones made it. That is, it isn't fair to Smith, for in the next game he will be spotted and the chances are he will have a number of important side lights snuffed out by the alert opposition before he has played seven minutes.

HOW IT HAPPENED. "You can't fool Baker with anything," Walter Johnson told us during the late series. "How does he hit that fast one of yours?" we asked. "By rapping it on the nose," replied the genial Senator. Which explains at this late date just why it was that Marquard, Demaree and Trosack couldn't get by.

Now the fact that playing Captain Ketchum at center, guard and end. If the half-backs can arrange some system whereby they can use themselves at all seven places at one and the same time there would be something to comm.

DOIN WILL NOT CHANGE PHILLY LINEUP FOR 1914

FROM PLAYING FIDDLE TO KING OF THE TURF

W. G. YANKE, the violinist who started a turf career on a "fiddle string" and ran it into a quarter of a million, and "Willkie," one of the stars of his stable.

One day not many years ago W. G. Yanke, violinist of a San Francisco cafe orchestra, had \$1 and a tip on a horse race. Ordinarily when a man has one of these "sure thing" tips and a fondness for the pointer he bets his money--and loses. Well, Yanke bet his \$1 on the hot tip at 10 to 1 and--won. This was Yanke's start. With the \$20 in his pocket he quit his job as violinist to carve out a turf career. To

JOHN L. AGAIN ANNOUNCES HE WILL RETIRE FOR GOOD

PHILADELPHIA, Nov. 10--John L. Sullivan, the undefeated champion, at London prize ring rules, selected this city yesterday to announce that he would quit the ring and stage. "I seize this opportunity," said Sullivan, "because it was in the Quaker City that I practically signed my death warrant, to meet Jim Corbett for the heavyweight championship of the world. That battle was fought at New Orleans September 17, 1892, and I was beaten in the tenth round. Marquis of Queensberry rules prevailed and we were in the ring for other for more than one hour and the younger man triumphed. "It is a sort of great solace to me to think that no man in the world ever beat me at London prize ring rules and I met the best. To be sure that little episode with Charley Mitchell, at Chantilly, France, March 10, 1894, after 19 rounds was called a draw. But mind son, I traveled to the other side, threw down the gauntlet and with a bad man was really lucky to get a draw. To prove

a stable of his own, which was soon rated with the best in the west. He went out and continued to buy horses and to win races. One of Yanke's charges is the famous "Win," "Round-the-World," now retired. It is owned with "Trick," sire of "Old Rosebud," "Miss Edith," "Little Nephew" and other crackles which have been sweeping the country clean in the two-year-old division.

A year ago Yanke engaged Charley Borel to ride for him, and today Borel is the best jockey in the land. While fortune has favored Jim Yanke has never lost his love for his old violin and often entertains the hangovers at his saloons. Every day or so at the track a new director for a subscription to the director of the band, and it usually carries Yanke's signature.

Big Tracts of Railroad Frontage on West Side, Comprising the Former Plants and Lumber Yards of the Ware Furniture Factories, Bought by Parrott and McKee for \$140,000—Peacetime Lease—Comparison of Building

Some big tracts of railroad frontage on the west side have just been sold by the Hugh T. Inman estate to George W. Parrott and Hugh McKee. The aggregate consideration was \$140,000. The tract covered the property on the Westchester and Atlantic railroad, 134,222 and 134,222 on Lakewood avenue and the eastern side of the street, 242,222, 242,222 and the northern side of Meann street, between Lakewood and Ponders avenues at the Meann street lumber yard. These locations contain the former plants of the Ware Furniture factory, which the Inman estate took over in the late part of 1917. The tract contains both frame and brick plants, consisting of the factory and mill buildings of the suspended company.

LEASE RENEWED. Every now and then the importance of Atlanta headquarters for the south-east territory is given formal recognition in some business announcement. Some time ago Turman, Black & Co. announced the purchase of the property from the Stewart-Warner building company. The company completed the sale for a time, but discontinued its Atlanta activity. Now it has taken a new lease of life, having been reorganized during the absence that it could afford to pay for the lease of the premises in Atlanta and the southeastern territory.

BUILDING CONTRACTORS. CHICAGO, Ill., Nov. 8.—The American Contractors' journal of building statistics for the year closed on November 1, 1916, compared with some period last year, give the following figures for southern cities:

Atlanta	1917	213,197	\$42,614,541
1916		193,421	\$35,507,842
